

Hartmann & König
Stromzuführungs AG

Slip rings

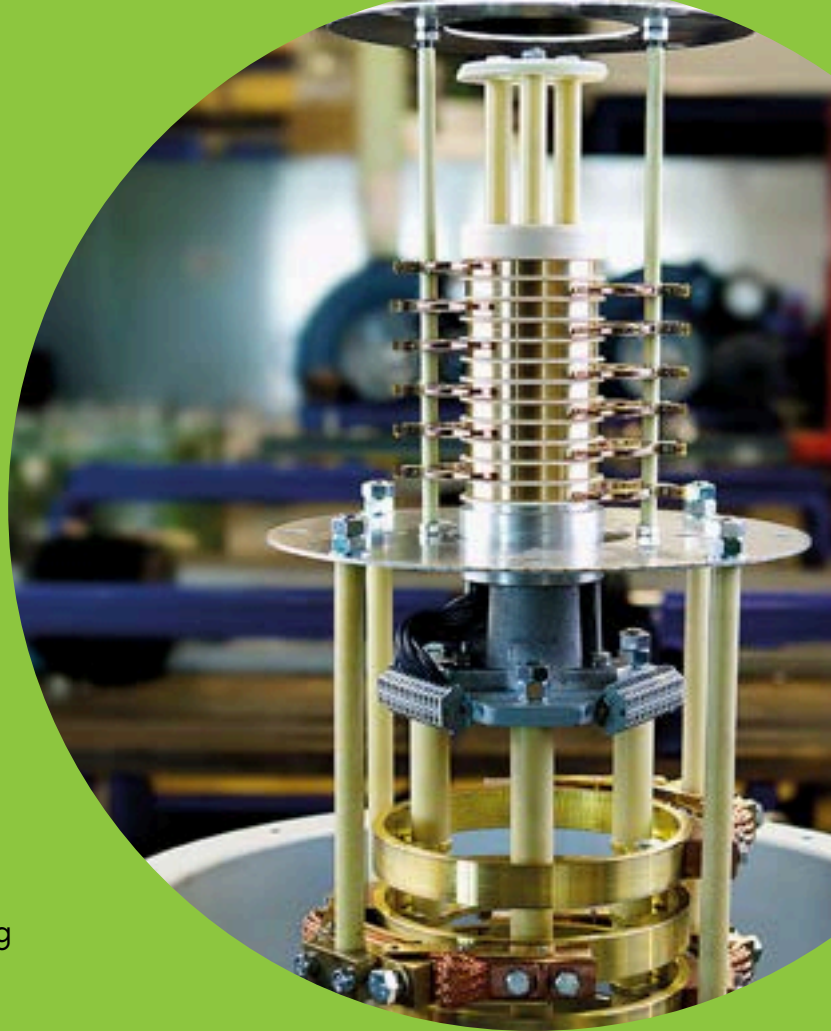

Slip rings are required wherever electrical power, control and data signals, or other media need to be transmitted from a rotating part to a stationary part.

Fields of application

- Ports & container handling
- Crane and lifting technology
- Surface mining
- Steel mills
- Military technology
- Plant engineering
- Environmental technology

Technical data:

- Operating voltage: max. 24.000 Volt
- Current: up to 1.000 A
- Protection rating: protection rating: IP55 (Standard), IP65, IP66, IP67 and further options available on request

Your benefits at a glance

- Reliable transmission of power, control, and data signals
- Modular system for a wide range of applications
- Maximum operational reliability, 24/7
- Robust, durable, and low-maintenance

We energize mobility. Worldwide.
